

## When it comes to healthcare staffing, **MORE** does matter.

Since 1988, Nurses and More has played a crucial role in matching patients, care facilities, and medical personnel by their unique needs. There is a good reason we've become the most reputable medical staffing agency in the industry. Clients trust us because they know we care, and that we will match them with excellent caregivers who have passed the most rigorous vetting process in the industry.

### Choosing Nurses and More really does mean more:

- + More Experience
- + More Support
- + More Options
- + More Confidence

### **More Confidence**

We understand that a gap in your staffing schedule can result in rescheduled patients, lost treatments and costly overtime. You need to keep your department running smoothly and that means more than simply filling positions. It means having a staffing partner who can deliver the right talent when you need it.

Nurses and More is focused on providing exceptional people and service every step of the way. We understand the level of trust it takes to place your staffing needs with an outside partner. We also believe it is our responsibility to be worthy of that trust in all that we do. We have staff on hand 24/7 to provide timely responses to your inquiries. It is a strict company policy that every client is followed up with immediately. No excuses.

## Options To Fit Almost Any Need

It's not enough for us to find the very best. We also work closely with you to identify the unique needs of your facility. Every job is different, and our expertise allows us the insight to understand your request and match you with the perfect fit. In fact, we even do an on-site tour of your facility to help ensure we provide the most successful placement. Whether you need a nurse for a day, or a physical therapist for a long-term assignment, we've got the right person for you.

## Our Screening Process

Nurses and More uses a rigorous screening process that's a lot more demanding than what you'll find anywhere else. Why? Because the truth is that not everyone is qualified to work for Nurses and More. And when we say no to those that don't meet our high standards, we start hearing yes—yes from hospitals and senior communities, yes from schools and long-term care facilities.

- + Discipline specific assessments / testing and skills evaluation – each HCP must pass a nationally validated exam that measures their basic skills, qualification in their specialty, as well as their capacity to utilize and apply their knowledge to deliver safe and effective patient care.
- + In-depth clinical management reference checks and professional reference evaluations
- + Comprehensive screening and interviewing
- + Testing includes, but is not limited to:
  - + Pharmacology / Medications Exam
  - + RN/LPN/C.N.A. - General functional knowledge competency exam
  - + LTC / Gerontology / Trach care test and other specialties
- + Full credentialing including: License verification, drug screen, background check, client specific orientation, OSHA training; health screening and immunization history upon hire
